

TOMRA Business Principles for Suppliers & Partners

For TOMRA, the principles of honesty and respect for all people are central to the way we conduct our business. And as a company with diversified operations around the world, we want to ensure that these principles are being followed wherever we operate with a high degree of care and integrity. This is an essential component of maintaining a good reputation and the continued success of our business.

We hold our suppliers & partners to the same standards of integrity to which we hold ourselves. An unethical or illegal act of a business partner may hurt TOMRA's reputation as a world-class company and cause a loss of goodwill in the communities we serve.

TOMRA chooses its suppliers & partners carefully, and expects that they will satisfy contractual requirements, comply with all applicable laws and regulations, and act in a way consistent with the principles and values contained in our TOMRA Code of Conduct and this Business Principles for Suppliers & Partners. TOMRA also expects that its suppliers & partners will follow a similar approach throughout their own supply chains.

TOMRA is also subjected to various laws and legislation, such as Transparency & Sustainability Acts, in the markets where we operate and expect suppliers and partners to similarly follow these and volunteer relevant information to TOMRA as part of our reporting requirements.

Our Business Principles apply to all transactions, large or small, and drive the behavior always expected of every TOMRA business partner in the conduct of its business.
