

Good things come in threes

Recycling that's streamlined and simple

Create a no-fuss experience for customers and staff by accepting up to three types of recyclables in the same machine, including refillables. The TOMRA T70 TriSort does it all, from sorting to storage − and faster than ever before thanks to TOMRA Flow Tecnology™, our 360° recognition technology.

Accept the most volume in the smallest footprint with a 50% increase in storage capacity over TOMRA's previous model, thanks to dual compactors and bin-rerouting function.

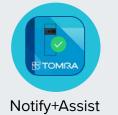

So many ways to make it fit your store

From the user interface screen to the design on the machine's exterior to the reprogrammable sorting options, everything is customizable to create the recycling program that works best for your store.

Voucher Control

API Integration

Digital tools extend your machine capabilities

Integrating your T70 TriSort with the full range of digital products and APIs helps you remotely monitor your reverse vending machine, maximize uptime, and engage with customers inside and outside your store.

Retailers help the world recycle

Deposit return systems (DRS) for beverage container recycling help keep valuable resources in a continuous loop of use and reuse. At TOMRA, we call this process Clean Loop Recycling.

As a retailer, you're at the heart of Clean Loop Recycling. You play a critical role at the point where consumers buy and return their containers.

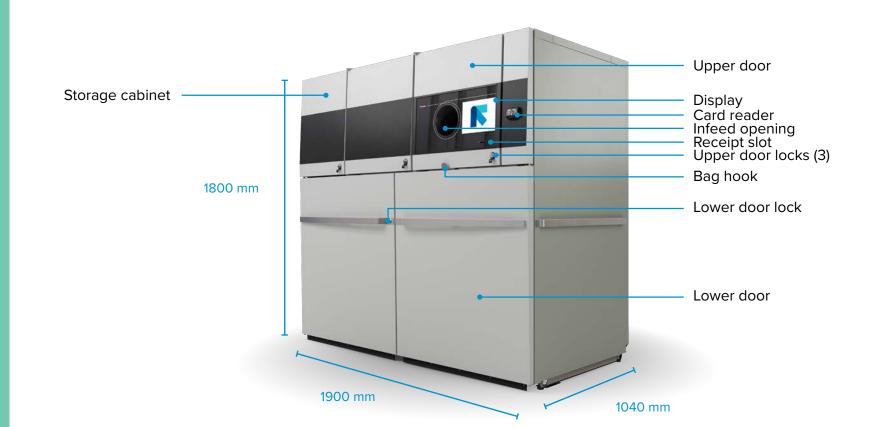

Let's put recycling to work for you

Choosing to partner with TOMRA means creating a great recycling experience for your customers, making a smart investment for your store, and choosing a solution that brings peace of mind and excellent support for your operations.

MEASUREMENTS*

1900 mm x 1040 mm x 1800 mm **Dimensions** [W x D x H]

1300 mm Infeed height Adjustment range for height +25 mm **Footprint** 2 sqm Weight 1 525 kg¹

STORAGE CAPACITY*

Up to 3 types of non-refillable and refillable **Accepted containers**

containers: plastic bottles, cans, glass bottles,

or a mix

Storage capacity per bin ³

PET bottles: Up to 850 (compacted) ³

Cans: 1500 (compacted) ³ Glass bottles: Up to 230

Container sizes (min/max size)

Bottles: 50-130 mm x 85-380 mm (D x H) **Cans:** 50-100 mm x 80-200 mm (D x H)

STANDARD CONFIGURATION*

Machine type Standalone reverse vending machine

Free-standing, front unload Bin unload direction

Number of cabinets & bins 1 cabinets, 3 bins

PET crusher/ Can crusher/Mix crusher (cans, PET Compactors

bottles) on left/right side, SoftDrop or Drop

for glass bottles (in the middle)

RAL 7042 [possible to wrap machine for a custom look] Colors

> Display: 10,4" touch display, video and sound capabilities, user guidance on machine screen

Printer: Thermal printer

ENVIRONMENTAL

Humidity

Temperature

Noise emission (in store)

Maximum 90% relative humidity, non-condensing

+10°C to +40°C / +50°F to 104°F

(For indoor or protected installation only)

Glass bottles (glass crusher): Lw = 92.5 dBA / $Lp,d@1m = 75,5 dBA^*$ (*All values $\pm 4dB$).

Measurements were performed based on ISO 9614-2

PET bottles (compactor): Lw = 79.3 dBA /

 $Lp,d@1m = 62,3 dBA^*$ (*All values $\pm 4dB$).

Measurements were performed based on ISO 9614-2

Aluminum cans (compactor): Lw = 78.7 dBA / Lp,d@1m = 61,7 dBA* (*All values ± 4dB).

Measurements were performed based on ISO 9614-2

RECOGNITION

User interface

Recognition technology TOMRA Flow Technology[™] (360° instant

recognition, shape recognition, full container

detection, barcode recognition, metal detection)

Up to 45 containers per minute² Speed capability

ELECTRICAL

Power consumption

Mains

Idle 67 W – Max. 3 kW
