

# TOM: "I MAKE YOUR DAY!"

**TOM IS NOT A CONVENTIONAL WASTE BIN.** He is just under 5' tall, smart, dutiful, quiet, a clean freak and compacts, accepting up to 7 times more waste before the bag is full! Furthermore, TOM is a social creature, loves crowds and politely opens its shutter when approached. When the bag is almost full, TOM communicates by sending you a message. TOM might be little, but it's capable of great things!
